London, 2.—The general result of the

municipal elections just held in England

and Wales, is a Tory gain.

Constantinople, 2.—Lord Dufferin took

his departure for Egypt to-day. Before

leaving he had an audience with the

Sultan.

Erzerum, 2.—In consequence of Rus-

sian surveys in the vicinity of Van, it is

reported that Russians are preparing to

march on Erzerum. Turks are concen-

trating troops at Van.

London, 2.—The Times, commenting

upon the Longfellow memorial, says it

cannot think the form proposed a suit-

able one. Westminster Abbey is pre-

eminently an English institution, not as

an international trust. The Dean of

Westminster will therefore be compelled

to consider the proposal to place a bust of

the American poet there with due refer-

ence to his action being a precedent.

There are many places in the city of

London where a statu of Longfellow

would arouse no discordant feelings. The

Abbey should contain the place of national

and not cosmopolitan memorial.

Constantinople, 2.—The council of

ministers of the Porte decided to refuse

the request of the British government to

establish a coal depot at the head of the

Province of Yemen.

Berlin, 2.—The date of the opening of

the Prussian Diet is fixed for the 15th in-

stant. The Emperor, to-day, gave

audience to Minister Puttkamer. They

discussed the question of the early dis-

solution of the Reichstag.

Socialist Herr Most, recently dis-

charged from a London prison, has

moved his newspaper, Freiheit, to Zu-

rich, and continues its publication in that

city.

The government of China has ordered

armor for the purpose of introducing into

China the new German system of plated

fortification. The dense naval ports of

China are also arming Chinese infantry

with the Prussian manner of rifles.

Paris, 2.—Louis Michel was to de-

liver a lecture at Ghent last evening.

Upon entering the hall, which was

crowded, she was hissed at and hoisted at

and struck on the head with the leg of a

table. She was taken away by friends

and the meeting dispersed. M. De Grais

has been nominated as French ambas-

sador to Rome.

George Crichton, an eminent oculist,

is dead.

London, 2.—The Irish parliamentary

party met to-day and resolved to vote

against Gibson's crucial amendment to

the clause in favor of two-thirds

majority. Twenty members were pre-

sent, and the vote was evenly divided for

and against the resolution. The motion

for abstention was rejected by Mr. Par-

nell's casting vote.

The Times in an editorial says: It

believes that a compromise has been

offered, or is about to be offered, to the

British government, the purport of

which is that Arabi Pasha be allowed to

exile. The proposal, however, is un-

acceptable.

Constantinople, 2.—It is rumored in

consequence of the fact that Dufferin is

to replace Malet, in Egypt, the Porte is

considering the advisability of dispatch-

ing a high commission to Cairo.

Berlin, 2.—The draft of an ordinance

has been submitted to the Bundesrath,

prohibiting the importation of American

swine, pork and sausage meat.

Injunction—Damages.

New York, 2.—In the litigation relat-

ing to the "Taken From Life" injunc-

tion, obtained by ex-Judge Dittanhofer,

counsel for Eugene Colville, to restrain

him from representing he was sole owner

of the play, and to compel him to ac-

count to Tompkins on the ground that

Tompkins was entitled to a half interest.

The motion to continue the injunction

was argued a few days ago, and this

morning Judge Barrett continued the

injunction, saying the papers show as

gross a case of fraud upon Tompkins as

had ever been brought to the attention

of the court.

Patrick Carey, longshoreman, crippled

for life by the fall of a coal tub into the

hold of the steamer Batavia, sued the

Cunard Steamship Company, claiming

\$80,000 damages. The jury, to-day,

awarded \$80,000.

Japan.

San Francisco, 2.—Per steamship

Oceanic.

Yokohama, October 8.—Dauwan Kuo,

leader of the Korean insurrection, is

condemned to perpetual exile in the

province of Chihli by the Chinese govern-

ment. The Korean army has arrived at

the Tokyo mission to apologize for the

attack on the Japanese legation. There

is a report of a difficulty in the pay-

ment of the indemnity owing to Korea's

poverty. Japan proposes the building of

two ironclads in England.

Inspector Pollock

Washington, 2.—The course of in-

spector Pollock continues to excite com-

ment in official circles. Acting Sec-

retary Joslyn said that Pollock, in pub-

lishing this report in the newspapers, of

the investigation of McGillivuddy, of the

Pine Ridge Agency, had treated his su-

periors with the utmost disrespect, and

showed not only a lack of respect, but

disrespect to the consequences. He added

that Pollock's report had been in the

possession of the department several

weeks, but had not been made pub-

lic for good and sufficient reason.

The Millie Mob Business.

Frankfort, Ky., 2.—McCree and

Mickols, guards, on the arrival from

Caldwell, were welcomed by a formal

address, in which their conduct was

approved. Governor Blackburn says he

saw troops to Caldwell upon the ap-

plication of Judge Brown, and while

deeply sorry for the dead and wounded,

he could not lay the blame on the troops;
